

Communication Training

Topic : A project I am working on.

outline :

- Search the domain of the project.
- Analysis of the project & planning for it.
- Discuss with Reporting Authority.
- Explanation brief about Project.
- Conclusion.

I choosed the project of "Digital Hospital". First of all we thought that which domain we choosed, then we decided that there is a lot of question while going to hospital. we thought that one of the best idea to build an application on Hospital. so we decided that we build the web Application on digital Hospital.

then we plomed for it that what to do. ~~the~~ we visited many Hospital & disccuss our thought with Doctors. Doctors ~~how~~ gave us positive reply as well as negative reply.

we Communicated with our family members and other person regarding to this topic. we got the positive reply by them. then we decided that we choosed the right Project.

we discuss with my RA, regarding to this project. they gave me the brief idea of this project. and they gave me idea how to start & learn the things to make web Application simple & useful to other.

In our project domain the first & main part is that getting the invdvement of patient & ~~some~~ Doctors. this project provides the interaction between the patient & doctor. Patient raised this Query to any of th doctor Post the Query. The Doctor reply & solved the Query. & gave the Suggestion. Application provided you to Appoint of the doctor by Patient. there are ~~lot~~ lots of bonefits of this Application. the time & money both the most important factor of life, so ~~there~~ this Application provided this both two simply.

this Project solves the time as well as money & gives the right & accurate solution. easily get appointment of doctor. easily interact with doctor so I choosed this Project & this is very use ful.

Thank you!
